

# Federal Immigration Agents Are Killing People. Republicans Are Lying.

There are federal agents operating in our communities with weapons, little oversight, and too much power. People are getting hurt, unlawfully detained, and killed. This is not okay. Here's how you can take action.

## 1. Tell Elected Officials to Act

Congress controls the funding for ICE and CBP. If lawmakers don't act, federal immigration enforcement will keep operating the same way.

You can pressure them to:

- Demand an end to the ICE operation in Minneapolis and stop other large-scale escalations in our communities.
- Oppose any further funding to DHS, including the funding bill before the U.S. Senate this week that would fund ongoing ICE operations.
- Call for a clear and open investigation into the killings of Renee Nicole Good and Alex Pretti and its failure to hold its agents accountable to the law.

**What to do:** [Use the ACLU's tool to contact your members of Congress.](#)

Senate Democrats are drawing the line and refusing to advance the Department of Homeland Security funding bill this week. **Thank your Democratic Senator for standing up against Donald Trump, and holding the line against funding for ICE without accountability.**

**What to do:** [Call your Senator](#) or [send them a letter](#) to say thank you!

## 2. Show Up: ICE Out for Good

A broad national coalition of partner organizations has come together for a coordinated response, with events happening across the country. If there is an **ICE Out for Good** action near you, go and bring a friend.
